

Project 2: Calendly app

The purpose of this project is to introduce you to how UIs of simple web apps are built.

Our target at the end of this project is to successfully build the interface for the Calendly web app.

Remember to always send snapshots to your teaching fellow for feedback

before you proceed to the next instruction.

Goodluck!

Book up efficiently

When invitees select a meeting slot from your schedule, they only see the times you're available, and only the length and type of meeting you want to have. Your schedule fills up efficiently, and everyone avoids excess email exchanges.

AUTOMATED NOTIFICATIONS & FOLLOW-UPS

Work like you have a personal assistant

Because Calendly automates administrative tasks like sending reminder emails and follow-ups, you can focus on the work that builds your business and brings customers back for more.
